

"It's not just a photograph, it's YOUR life."

Photography by Sylvia is a family owned business that wants to capture your most memorable moments. We do not just photograph your special day, we capture emotions. I have 10 years experience and have shot countless events including events, weddings, family, children and senior portraits. I photograph in a creative, photojournalistic style, using natural poses.

When you book your event or session with Photography by Sylvia, you are getting experience, commitment, creativity, and the promise that I will work very hard to make sure your day is special.

I offer natural light photography as well as studio sessions creating beautiful images on location, or timeless classics in studio. Before a session, I will work with you and create a photo session plan using locations that will best suit your personality and event. Sessions can run from 1-8 hours depending on the package you choose. Within that time frame, we will have you in various poses using and taking advantage of the wonderful locations that will compliment you and your portraits. This is your time, these are your memories. Enjoy your session.

What to expect at your Portrait Session

The Beginning: We start the shoot by getting “use to being” in front of the camera. Most people are naturally shy at first, but once they start to get a feel for my personality and what to expect they let their guard down. It is my job to try to get you and your family, pets, or baby to relax and enjoy the shoot. It is your job to have a good time. Remember, these sessions were meant to be for you. Our goal is to leave with some great images.

On Location: My on location portrait shoots tend to go over the 1-2 hour basic time frame. That is because I want to make sure everyone and everything is working and we allow enough time to have a “smooth” running shoot. Spontaneous shoots are my favorites. And if things start to go South, I like to take a break and chat about where we are as far as images.

Studio Portraits: Studio shoots are basically at the 1-1.5 hour range. I like to try and keep a creative aspect at the shoot. Spontaneous is a little harder with lighting, backdrops, studio strobes, some tend to feel a little intimidated by all the gear, but I do try to keep it all relaxing, new and exciting.

Wardrobe: What you wear is very important. Plan your attire; the images can be very vibrant and colorful. If the classic look is what you like, we can work on color themes to make sure that “look” is worked into the shoot. Wear comfortable clothes and shoes to bring it all together. Sometimes we forget to look down and realize the old cowboy boots just might not look to good with the beautiful lace dress...but then again. It’s all in your personality. Just don’t let your shoes be the afterthought.

After the photo session: After the session the images are worked on for about 2 weeks. Depending on how many images are taken. This is for post processing, color correcting, and image enhancing and creating proof books or on line up loads. Some would rather hand out a warehouse printed proof book. But I like to show my clients the best images ever at the proof book stage. We have a proofing consultation where we can show you what products we have and the different packages we can create with your images. We never ever pressure you to purchase a “cookie cutter” package. Each session is different each client unique. We use the best print processing labs. We also use the finest achieve quality photo paper.

The best tip I can give my clients, is to relax, this session/event is for you and your family. We are committed **100%** to make this day a special occasion. We look forward to a wonderful photo session, and remember, if you have a question, please ask, I am always a phone call, email or text message away. Thank you again for choosing Photography by Sylvia.
